Your Nervous System Controls Everything

pituitary gland, scalp, brain, left ear, left eye right eye, right ear, brain, scalp, pituitary gland head, eyes, tongue, left ear, left eye, heart heart, right eye, right ear, tongue, eyes, head C2 diaphragm, right shoulder, right ear, right side of neck, face face, left side of neck, left ear, left shoulder, diaphragm **C3** face, left side of neck, left chest, diaphragm diaphragm, right chest, right side of neck, face diaphragm, right shoulder and upper arm, vocal cords, neck neck, vocal cords, left shoulder and upper arm, diaphragm (5 left shoulder, left arm, tonsils tonsils, right arm, right shoulder Cé thyroid, right hand, right wrist, right arm, right shoulder left shoulder, left arm, left wrist, left hand, thyroid right hand, right wrist, right elbow, right arm, right shoulder left shoulder, left arm, left elbow, left wrist, left hand trachea, esophagus, thyroid, heart, neck, head, right hand and elbow head, neck, heart, thyroid, esophagus, trachea, left hand and elbow head, neck, heart, left lung, upper left arm upper right arm, right lung, heart, neck, head head, neck, heart, left lung, chest, upper left arm upper right arm, chest, right lung, heart, neck, head upper right arm, gallbladder, lungs, heart, neck, head head, neck, heart, lungs, gallbladder, upper left arm 15 esophagus, liver, heart, neck, head, upper right arm, blood circulation head, neck, heart, liver, esophagus, blood circulation, upper left arm pancreas, spleen, stomach, esophagus, middle back, duodenum esophagus, stomach, spleen, pancreas, duodenum, middle back 17 17 stomach, spleen, pancreas, duodenum, liver, gallbladder, middle back liver, duodenum, pancreas, spleen, stomach, middle back, gallbladder gallbladder, liver, pancreas, spleen, stomach, stomach, spleen, pancreas, liver, gallbladder, middle back, adrenal glands adrenal glands, middle back stomach, spleen, pancreas, adrenal glands, gallbladder, gallbladder, adrenal glands, pancreas, spleen, stomach, reproductive organs, liver, small intestine small intestine, liver, reproductive organs 110 110 stomach, spleen, pancreas, small intestine, reproductive organs, appendix, large intestine, left leg small intestine, pancreas, spleen, stomach, right leg, large intestine, appendix, reproductive organs left kidney, reproductive organs, left leg, small intestine, small intestine, right leg, reproductive organs, right kidney, ileocecal valve, adrenal glands, bladder, large intestine large intestine, bladder, adrenal glands, ileocecal valve small intestine, right leg, reproductive organs, right kidney, left kidney, reproductive organs, left leg, small intestine, ileocecal valve, upper and lower back, bladder, large intestine large intestine, bladder, upper and lower back, ileocecal valve right leg and foot, reproductive organs, abdomen, abdomen, reproductive organs, left leg and foot, bladder, large intestine large intestine, bladder right leg and foot, reproductive organs, reproductive organs, left leg and foot, abdomen, appendix, bladder, large intestine large intestine, bladder, appendix, abdomen prostate, bladder, reproductive organs, right leg and foot, large intestine eproductive organs, bladder, prostate, large intestine, left leg and foot prostate, right leg and foot, right buttocks, muscles of the lower back left buttocks, left leg and foot, prostate, muscles of the lower back prostate, right leg, foot and toes, right buttocks left buttocks, left leg, foot and toes, prostate 15 prostate, bladder, right leg and foot, right buttocks left buttocks, left leg and foot, bladder, prostate CRUM left buttocks, left leg, reproductive organs, bladder, prostate prostate, bladder, reproductive organs, right leg, right buttocks prostate, bladder, reproductive organs, right leg, right buttocks left buttocks, left leg, reproductive organs, bladder, prostate anus, reproductive organs reproductive organs, anus anus, rectum rectum, anus

The nervous system is complex. Only the most significant neurological relationships are shown.

Many organs and tissues have multiple nerve supplies.

anus, rectum

rectum, anus
