

GENETICS Testing Instructions

- Go to my website to link to ordering 23andme kit.
- When 23andme results come in, there will be an option to download raw data to be put into our interpretation software. Click on “Tools” on 23andme report page and “**Browse Raw Data**” will be in the dropdown. Select “**Download Raw Data**”. This will take a bit and you will get an email once it is downloaded. You may have to call 23andme to have them show them how.
- Let Atlas Chiropractic know when your results come in and we will send you an invite via email to download your raw data into our genetic software authorizing our software to have access to it. Every patient needs their own email for their report. Only one email per result. I can go in to interpret results. Software gives results on how you should approach your individual genetic results. The fee for this is \$99. Dr Amy will reply back via email with the interpretation.
