

Buying your own BEMER

BEMER's increase microcirculation for 12-24 hours after use. Every person is different and it depends on what your circulation was to begin with as to how long the effects last. Because of this, most people who have tried a BEMER realize having one of their own is the best option as opposed to paying for sessions somewhere. No one in Iowa had one I could even try before purchasing one. Before purchasing my BEMER, I researched magnetic field treatment for at least 2 years, but kept putting it on the back burner because a BEMER is \$6280 and was not available in the US and I just wasn't convinced of the other cheaper machines out there. But, magnetic fields of the earth kept coming up in my reading and research. I got the frequency bracelets and loved them (much cheaper and a different type of frequency) and started grounding/Earthing with an Earthing Pad and loved it, but the BEMER was bigger and better due to a patented PULSE of frequencies and intensities. Then, my receptionist's (Sharen) daughter and grandson had great success with a BEMER in South Carolina at their ATLAS chiropractor's office. Then a patient of mine who lives with constant pain due to MS traveled to Australia and felt so much better while there, but her pain returned when she came back home. Why? The earth's Intensity (measured in Gauss) is 3X greater in Australia than what it is in Iowa!! The next thing was Sharen and her husband found a BEMER in Florida and Sharen knew that I had been looking into these devices and called to let me know how amazed they were by it. The final step was reading Ty Bollinger's new release called "The Truth About Cancer" and he talked about magnetic field treatment (also called PEMF) for detox in cancer prevention and treatment. PEMF on the BEMER is a great detox. How many more signals did I need?!? To order your own BEMER, follow these steps:
